PREFATORY

The publication of lineages by the National Society, Daughters of the American Revolution, was discontinued a good many years ago, much to the regret of its members and of genealogists generally. Since then there has been an increasing sentiment favoring the publication of lineage records by the various chapters, though few have undertaken it. To help meet this need, JOHN FLOYD CHAPTER has authorized the publication of its records.

Though less than ten years old JOHN FLOYD CHAPTER has already advanced to fourth place in membership among Georgia chapters, and in this connection it is well to remember that Georgia has a larger Society membership and a greater number of chapters than any other Southern state. An unusually large number of our chapter members have supplementary lines; however, the unfortunate increase in fees charged for Supplemental Applications in the last two or three years, has discouraged members from any longer sending in supplementals, with the result that none have gone in from our chapter during the past three years.

The files of our chapter reveal over fifty new lines which have been accepted from JOHN FLOYD CHAPTER since its organization in 1948. It is worthy of note that this is a much larger number of new lineages than has been had by any other chapter in the state for a comparable length of time.

The publication of these records should enable a great host a prospective members to easily prepare their papers or have the same done, and also should afford those interested generally in genealogy to have access to the great mine of genealogical material of the chapter, heretofore closed to the public.

This first book contains the records of only fifteen out of the fifty-odd new lines referred to. But as will be seen, each line carries an average of six to eight records. These have been listed for convenience, in the Table of Contents.

Assuming that the reception accorded this first book will meet expectations we hope to have the second book published and ready for distribution within about six months. Thanks are due our Registrar for her labor of love in getting these records prepared for publication. The amount of labor and time required for such an undertaking as this, and the time involved in mimeographing etc., is much greater than the average member realizes. All profits from the sale of these books, go into the chapter treasury, so that we hope our Chapter will benefit financially as well as in other ways from this undertaking.

January, 1953.

(MRS.) AVIE J. CARTER, Regent,
John Floyd Chapter,
Lake Land, Georgia.

All of the foregoing fifteen lines are "new lines", that is, accepted by the Registrar-General for the first time through John Floyd Chapter, EXCEPT three, viz., Thomas Blitch, John Ricks, Charles Smith, and as to these three, new branches of these lines reaching back to the Revolutionary ancestor were established through our chapter for the first time.

It is not the intention of the Chapter Registrar to limit the lines in this and following books to "new lines", but rather, to include all lines represented and called for by the application papers of all of our chapter members.
